- Embodies a distinctive type, period, method of construction, represents work of a master, possess high artistic values

Criterion D

- Yielded or likely to yield information important in prehistory or history

Areas of Significance (31)

- Historic contexts

Section 106 of the National Historic Preservation Act

National Register Criteria, continued

Seven Aspects of Integrity

1. Location
 - Place of construction or event
2. Design
 - Combination of elements that create form, plan, space, structure, style
 - Districts: relationship between buildings, roads, streetscape or visual rhythm
3. Setting
 - Physical environment of property
 - Relationship between buildings and other structures
4. Materials
 - Elements combined during a particular period in a particular configuration to form a property
 - Must retain key exterior features, materials
5. Workmanship
 - Physical evidence of crafts of a particular culture or people during any period
 - Illustrates the aesthetic of a period
6. Feeling
 - Expression of the aesthetic or historic sense of a particular period of time
7. Association
 - Direct link between important event or person and a property

Section 106 of the National Historic Preservation Act

Determination of Effect

- FHWA & DOT responsible for applying adverse effect criteria in consultation with SHPO, THPO, and Consulting Parties
- Adverse effects based on action's impact on characteristics that qualify it for listing
 - Diminished integrity

Examples of Adverse Effects

- Take, removal, demolition (direct)
- Introduction of atmospheric, audible, and visual elements (indirect)
- Change of use

Section 106 of the National Historic Preservation Act

Identify Mitigation

If a project results in Adverse Effects to historic properties:

- FHWA, DOT, SHPO, THPO negotiate appropriate stipulations to mitigate any adverse effect
- Consulting Parties may provide input on stipulations

Stipulation examples:

- Recordations/Documentation
- Interpretive panels
- Booklets
- Use of Secretary of Interior Standards for design

Section 106 of the National Historic Preservation Act

Consulting Party Role

What to expect:

- Attend meetings as part of Section 106 process
- Provide information on historic properties if not already identified
- Provide comments on Determination of Effect
 - Comments rooted in historical significance of properties, historic property integrity, and effect criteria
- Provide comment on mitigation stipulations

Section 106 and National Environmental Policy Act (NEPA)

Section 106 is one of many factors weighed to determine a preferred alternative.

Other Factors:

- Endangered species
- Bridge condition
- Bridge functionality
- Critical habitats
- Contaminated soils
- Water quality

Historic Properties

Blue Hill Falls Bridge

- National Register-eligible
- Criterion C
- Area of Significance: Engineering
- Level of Significance: State
- Period of Significance: 1926-c.1960
- Character Defining Features:
 - Concrete tied arch thru bridge
 - Granite faced concrete abutments
 - Ashlar wingwalls
 - Concrete rail
 - Tidal setting

Historic Properties

Arcady

- National Register-eligible
- Criteria A & C
- Area of Significance: Architecture, Entertainment/Recreation, & Landscape Architecture
- Level of Significance: Local
- Period of Significance: 1903-c.1960
- Character Defining Features:
 - Renaissance Revival style
 - Stucco exterior
 - Three terraced lawn with limestone staircases and landscaped elements
 - Contributing garage and guest house

Historic Properties

Wakonda

- National Register-eligible
- Criteria A & C
- Area of Significance: Architecture & Entertainment/Recreation
- Level of Significance: Local
- Period of Significance: 1903-c.1960
- Character Defining Features:
 - Queen Anne-style architectural features and massing
 - Wooded setting

Historic Properties

Blue Hill Falls Historic District

- Criteria A & C
- Area of Significance: Architecture, Engineering, Entertainment/Recreation, Landscape Architecture
- Level of Significance: Local/State
- Period of Significance: 1903-c.1960
- Character Defining Features:
 - High style architecture
 - Coastal and wooded setting
 - Landscape architect designed gardens
 - Concrete tied arch thru bridge
